## Discover the QualiTEAM Project

The QualiTEAM project is co-funded by the European Union under the Erasmus+ Programme: Policy Experimentation - Vocational Education and Training (project number: 101196074). The project aims to create a shared methodology at a European level that makes transnational apprenticeships more accessible, well-structured, and sustainable in order to strengthen the link between education and the labour market.

## QualiTEAM Objectives

- **A transferable methodology for the quality implementation of long-term apprenticeships:** designed to address both soft barriers (psychological challenges, language, homesickness) and hard barriers (recognition of competences, regulatory frameworks, social security issues).
- **Strategies for recognising CBLTMA skills through European collaboration:** project partners agree on shared skills, infrastructure, and methods to ensure mutual recognition across countries.
- **Networking to strengthen the relationship between apprentices, employers, and VET providers:** the project develops digital tools to connect apprentices, companies, and training providers.
- **Improving the experience of apprentices:** apprentices are supported by tutors both from their home country and at the host company.
- **Digitisation of European Apprenticeships and VET Providers:** practical digital tools to improve access to information on apprenticeships and VET opportunities across Europe.

## Kick-off Meeting in Naples!

The QualiTEAM project officially began with its kick-off meeting held in Naples, Italy, on 22–23 May 2025, hosted by COSVITEC. The event brought together partners from Italy, Greece, France, and Romania, united by a shared mission: to strengthen the quality and accessibility of long-term cross-border apprenticeships across Europe.

Over two productive days, partners discussed the project's main areas of work and collaborative activities. Key topics included the harmonisation of apprenticeship systems, the creation of European guidelines, and strategies for effective communication and dissemination.

## The QualiTEAM Platform is Live!

We are excited to launch the QualiTEAM platform, a digital ecosystem connecting apprentices, hosting companies, and VET providers to simplify long-term cross-border apprenticeship management. With intelligent matching, personalised accounts, integrated communication, and progress tracking, the platform makes mobility more transparent, accessible, and impactful across Europe. Visit our platform [here!](#)
